### Challenge

In today's increasingly complex world of information, Business Intelligence applications are one of the most invaluable business tools within an organization. Delivering a BI solution with the right information, to the right people at the right time not only improves business decision making but also reduces manual report preparation and repetitive data extracts.

ResultsPositive understands this critical information need which is why we developed a PPM BO Reporting package providing a content rich, cost-effective solution. Our pre-packaged solution provides dozens of pre-developed reports through a consolidated information universe. Need to develop new ad-hoc reports? With this solution you can create new ad-hoc reports in minutes through one drag and drop query for a project financials report

versus having to create three separate queries without using our consolidated universe.

### Key Features & Benefits
